Today, among the neo-classical buildings that have been built along the street, the most important is the building of the Municipality of Thessaloniki. This building is a masterpiece of neo-classical architecture and is one of the most important buildings in the city. It was built in the 19th century and is a fine example of the style. The building is a long, narrow structure with a central section that is slightly taller than the rest. It has a series of columns on the front and a series of windows on the sides. The building is a fine example of the style and is one of the most important buildings in the city.
