Next to a three-floor dilapidated tower in the region during the reign of the Venetians, since from its top

The sanctuary is built 90cm above ground, resulting in a need to climb up 6 (six) steps to enter

The interior of the temple is possibly frescoed during the late-Byzantine period,

The dedicatory sign memorial painted in 1570, so it can be deduced that the Abbey must have operated

The monastery has kept on performing its liturgical services, till 1834, it is a private one, but still visible

The exact location of the [Map](#)oly Church can be tracked in the section:
